

Professor Pat Price MA MD FRCP FRCR

Consultant Oncologist

Short Biography

Pat Price trained in general medicine in Cambridge and in oncology at the Royal Marsden Hospital. She has been working as a clinical oncology consultant for 34 years. She undertook her research degree at the Institute of Cancer Research and was awarded the Cambridge University medal for best laboratory-based MD in 1991. She went on to be a clinical academic oncologist at Hammersmith Hospital with research programme grants from the UK Medical Research Council, Cancer Research UK and the US National Institute of Health. In 2000, she established the first Ralston Paterson Chair in Radiation Oncology at the Christie Hospital and set up the new Wolfson Molecular Imaging Centre at the University of Manchester.

Pat returned to Imperial College in 2010 as Visiting Professor in Oncology and is now involved in a large-scale international research programme to develop new quantitative in vivo imaging technology to investigate important questions in cancer and immunology that cannot be addressed in any other way, as well as a large scale biology and physics programme to develop laser based productions of high energy ions for new therapy in cancer. She also chairs the Radiation Oncology Executive Board for HCAUK. She has an international reputation in the molecular imaging of tumour biology and is currently a director of a molecular imaging advisory company. Pat co-edits the UK standard textbook of oncology "Treatment of Cancer" - now in its 7th edition and has over 300 research publications (H factor 63). She works with her husband, a leading academic medical physicist, has two sons and three stepchildren and is based in London and Wilmslow.

Pat founded and is Chair of Trustees of the national charity Radiotherapy UK [Radiotherapy UK](https://www.radiotherapyuk.org/) which is appointed as the secretariat for the All-Party Parliamentary Group on Radiotherapy (APPGRT) aiming to improve radiotherapy in the UK [APPG for Radiotherapy](https://www.appgforradiotherapy.org/). She set up the high profile [#CatchUpWithCancer](https://www.catchupwithcancer.org/) campaign during Covid to lobby the Government for a new national cancer recovery plan. The Daily Telegraph published and extended featured interview with Prof Price [Professor Pat Price: 'The NHS can't run at full capacity – bureaucracy is clogging the system'](https://www.telegraph.co.uk/health/2020/04/27/prof-pat-price-the-nhs-cant-run-at-full-capacity-bureaucracy-is-clogging-the-system/) ([telegraph.co.uk](https://www.telegraph.co.uk/)). She also founded the [Global Coalition for Radiotherapy](https://www.globalcoalitionforradiotherapy.org/) which has developed a radiotherapy taskforce to support cancer therapy in Ukraine during the current conflict.

Pat has undertaken medicolegal work for the last 33 years specialising in cancer causation cases. office@patprice.co.uk.

Pat regularly leads a team "Running for Radiotherapy" and has run the last seven London Marathons. The current Miles4 Radiotherapy team hopes to lead 1000 front line staff around the country clocking up miles for Radiotherapy [Miles4Radiotherapy 2023](https://www.miles4radiotherapy.org/) over three months raising money towards ensuring all cancer patients in the UK get access to the best radiotherapy wherever they live.
